

## Southern Charm Aussies

### Shots

I, \_\_\_\_\_ have been informed that the Australian Shepherd puppy I am purchasing has had or recently had its first 5 in 1 puppy shot or possibly a second shot 6 in 1, noted in my puppy pack. Breeder (Donna McCue) has talked with me concerning how dangerous it is for the puppy not to continue with its series of puppy shots also exposing puppy to unfamiliar surroundings due to parvo, distemper etc. Breeder (Donna McCue) has provided me with an updated record of de-wormings, shots given and what preventive instructions I (buyer) need to follow to ensure my puppy's safety till all shots are given. I (buyer) have been given a 48 hour health guarantee to take my puppy to the vet. This guarantee does not cover common puppy issues such as internal parasites commonly found in puppies. After this time Breeder (Donna McCue) can not be held responsible for purchaser not following through with instructions given by Breeder (Donna McCue).
